Habitat for Humanity – Greene County
Location: Greensboro (30 miles from Athens)
Organization Description: Greene County Habitat for Humanity (GCHFH) visions a world where everyone has a decent place to live. Since 1996, when we started with just one house a year, we have been able to assist 154 individuals in freeing themselves from substandard housing and start them on a road of self-support and self-improvement. Our organization assists families whose household income falls below 60% of the median income and have good employment history, teaching them life skills, money management, and homeownership skills. This partnership grows with sweat equity as the family assists in building safe and affordable homes, communities, and hope. Homeownership is made affordable through a zero percent interest mortgage consisting of land and basic construction costs. The ultimate goal is to break the cycle of poverty and never build a habitat home for the children. In addition, we provide educational support for the many students who live in GCHFH homes developing educational plans which meet their future ambitions as well as by helping them continue their education through attendance at college and technical schools. Currently, we are in need of someone to assist with the design of your new website, and to assist with us with an overall social media strategy. We also have general office duties which need to be performed including set-up a better management system for tracking volunteer hours. In April, we will be hosting a golf tournament and could always use another friendly face.
