

What can I do with a major in “Management Information Systems”?

The University of Georgia Career Center
Clark Howell Hall, 706-542-3375, www.career.uga.edu
Department of Management Information Systems, www.terry.uga.edu/mis/

This information describes typical occupations and employment settings associated with this major. Understand some of these options may require additional training. Moreover, you are not limited to these options when choosing a possible career path.

Description of Management Information Systems

An MIS major prepares students for a future as information systems professionals, innovators, and managers. The coursework choices also provide preparation for a variety of technical leadership positions. The program is interdisciplinary in nature with specialized training in information systems, information management, and information technology so that graduates can ultimately assume managerial positions and provide leadership in information systems innovation.
