**UGA Cooperative Extension Services**

An Intern Student would shadow an Agricultural & Natural Resource County Extension Agent during the course of a typical day. These Agents are UGA Public Service Faculty members whose duty is to deliver unbiased information from the University to all Georgians, particularly those who lack access to formal education. County Extension agents help keep farmers abreast of the latest agricultural technology, research and marketing strategies. Some agents help parents cope with the pressures of balancing home, work and children; others help keep families healthy with information on nutrition and food safety.

Any College of Agricultural & Environmental Sciences students as well as participants from the Warnell School of Forestry, Pre-Vet, or hard science majors would be welcomed.
